

# TRESU

Proven long-term performance with TRESU Customer Care

## Extending Performance

# Extending performance with genuine parts

In order to keep your printing equipment and your business running be sure to perform maintenance and replace wear parts when needed – and to choose the right supplier with the right products, spare parts and experience.

If you choose products, that are not designed and optimized for the purpose, you risk unexpected interruptions with increased downtime. This can jeopardize the performance of your equipment - and the result of your business.

Stay ahead and benefit from TRESU's 40 years of experience, patents and innovative cooperation with leading players in the industry.

If you have chosen TRESU chamber doctor blade systems, why would you buy spare parts in any other quality than the genuine from TRESU?

## Replacing wear parts - when needed

MTBF or MTBM? If you think finding the optimal Mean Time Between Failure (MTBF) - or Mean Time Between Maintenance (MTBM) - sounds complex, then we can help you optimize your spare part supply situation.

## Safety

Genuine TRESU end seals are designed from the right compounds and with the right geometry in order to safeguard your print job on the long run.

## Performance

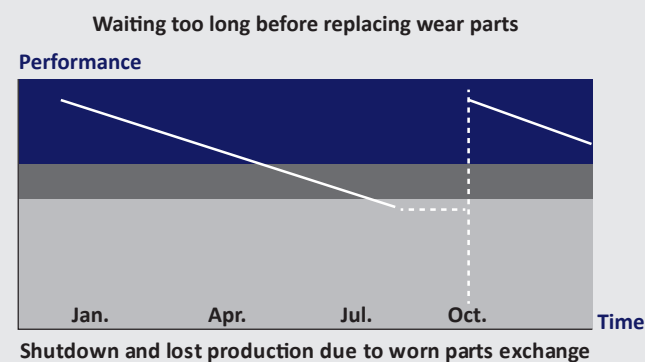

Your TRESU doctor blades are backed and supported. Non-genuine aftermarket wear parts are often sold to be used in a variety of different chambers - and can result in the need for parts replacement or repairs.

## Durability

The right recipe of your cleaning detergents will extend the performance of your equipment and reduce your cost of printing by reducing waste and downtime.

## Order on-line 24/7

Genuine TRESU parts are available online 24/7 - shop by press, part, category or part number – we ship to all destinations.

**Replacing wear parts when needed will save you from unnecessary downtime and service based on costly and time-consuming assumptions. TRESU can help you optimize your spare- and wear part supply situation.**

# Built on Quality – with Care for the Environment

## ISO 9001:2015

We know that availability of our products means the world to our customers - it always has.

We understand that our offerings are critical in terms of the availability of your machines. Supplying proven printing technology is our business. Each and every day. Of course, we are ISO 9001 certified.

To us quality is not just a key to market access – it goes far beyond that.

## ISO 14001:2015

When you select TRESU as your responsible supplier, you can rest assured, that we have carefully selected ours.

Right from the sub-supplies, to shipping and to unboxing the delivered parts, a sustainable footprint is our major concern.

We strive to continuously drive down energy consumption and waste and increase the use of biodegradable products when possible.

Our aim is to push this agenda even further and choosing TRESU spare- and wear parts will put you on the road to a more sustainable production.

# TRESU webshop

We have put together a special selection of frequently purchased genuine spare parts and consumables in order to extend the performance of your TRESU equipment:

<https://www.tresu.com/webshop>

**Direct, fast, secure, and convenient on-line portal for ordering genuine spareparts & consumables:**

- Save time and money
- Order around the clock – daily shipping
- Worldwide delivery
- Genuine spare parts & consumables

**Shop genuine spare parts - by press, part or item number!**
